## About me

Meticulous and motivated web developer with a flair for creating elegant solutions in the least amount of time. Skilled in building scalable web applications using frontend tools such as React.js,Next.js, Figma, Framer motion and NodeJS/Firebase as a backend service.

Passionate about **responsive** and elegant web design. Enjoys developing scalable web applications with cutting edge technologies.

## Projects

**New website for Globepaddler (a Swiss Kayaking company)** *(Ongoing)*

> Currently working on a project which requires a complete overhaul of the UI and an admin dashboard. Using **Next.JS** as a frontend SSR tool and **Strapi(headless CMS***)* for content management.

**Job Dashboard for Global Talent Accelerator(GTA),Canada** *(Ongoing)*

> Developing a feature rich, jobs search and result dashboard using React.

**Portfolio Website**

> A repository of my various **MERN** stack web applications. The projects are developed using modern react tools such as Context API, hooks . Used Express/Firebase for managing backend API systems.

## Work Experience

**Associate Unit Head, Defence Sales**- Pramerica Life Insurance Ltd. *June,2019-June,2020*

- Presented a prototype of a web app, where our policy holders could see their policy details and the loyal and premium paying customers would get loyalty points. Customers would accumulate more loyalty points through referrals and policy consistency, which would then be redeemed via various e-commerce platforms.
- Was responsible for every aspect of sales from team hiring training till closure.

**Contracting - Web Development, Self-employed** *(2015-2017)*
Worked on several freelance web projects.
*Environment***:** Sass/JavaScript/Bootstrap/Gulp/Webpack, ECMA/ES6
